Dear Jonathan,

I am writing on behalf of Down Syndrome NSW to thank you for generously giving your time and expert knowledge to present an informative seminar on Estate Planning on Saturday 12th September to our members.

I found your talk was pitched at a level for all the audience to relate to, given the wide age group of our members. The information was clear and presented with examples and handouts to explain the complex topics such as power of attorney, testamentary trusts, special disability trusts, preservation of Centrelink benefits and more.

In our experience, estate planning is an overwhelmingly emotionally charged topic. Our members were especially impressed with how sensitive you were to this and took time to answer questions that your presentation generated. Your presentation gave rise to new information and knowledge that will assist our members to go forward with organising their estate plans.

Once again thank you for your time and expertise.

Yours sincerely

A handwritten signature in black ink that reads "R. MacDonald".
