Dear Jonathan

Thank you for your generosity in offering such an enlightening information session -“Estate Planning for Parents of Persons with a Disability” on Wednesday, 24 June 2015 last. I have subsequently had very positive feedback from both parents and staff on how useful your presentation was.

In my experience, the issue of estate planning often causes families great anxiety. So many families struggle to understand this difficult and emotional topic so we really appreciate your offer to speak.

Your talk was clear and full of very useful content and examples and it was great that you were able to cover complex topics such as powers of attorney, guardianship, testamentary trusts, special disability trusts, preservation of Centrelink benefits and more. The families also appreciated the detailed handouts you provided.

What was really impressive was that you were able to explain these issues in a way that was accessible to our parents and that you were sensitive to the emotional aspects of the content of your presentation and the questions it generated.

The overall consensus of the audience was that it was an excellent presentation and everyone was very appreciative of the way in which you handled the topic.

Cerebral Palsy Alliance is very grateful for your assistance.

Yours sincerely

Liz Foy
